

Advantage Learning Center

COVID 19 Safety Protocol Measures

May 5, 2023

So far in 2023, there have been a total of 2 unlinked cases of COVID-19 in the program. As COVID-19 becomes less and less frequent, ALC will shift to adopting the following protocols as part of our normal operations. If/when there is an increase in community transmission, the Safety Protocols will be updated as needed.

When you arrive at the Advantage Learning Center, please help your child wash their hands in their classroom sink. Each child will be observed for common signs of illness at arrival and throughout the day.

Our normal Illness Policy still applies for all illnesses, including COVID-19, and was updated in March of 2022.

As part of the Illness Policy: Children and staff who test positive for COVID-19 must be isolated for 5-10 days. To return prior to 10 days after testing positive, symptoms must be fully resolved and the person must be fever free for 24 hours without the use of fever-reducing medicines. In the event a child or staff member tests positive for COVID-19, we will report to the Jefferson County Public Health Department and work with them to determine next steps.

When community transmission levels for Jefferson County are medium or high, we will post signs asking everyone to please consider physically distancing from others and avoiding crowding in indoor common areas, meeting rooms, and in agency-designated high risk settings. When community transmission levels are high, masks will be required for everyone ages 3 and older.

We will follow all normal standard precaution protocols regarding hand washing, cleaning, sanitizing, and use of gloves.

These instructions were based on those published by the Colorado Division of Health and Environmental Sustainability, the Office of Early Childhood, the Jefferson County Public Health Department, and the Center for Disease Control. We will continue to monitor directives from the Health Department and The Office of Early Childhood and make changes to remain in compliance.
